Dear Company,

this notice is to specify the criterion to calculate the $V(a)$ coefficient, which we have stated in our invitation letter to submit an offer for the "manufacturing of the electro-mechanical structures for the prototypes of Cherenkov telescope with a dual-reflection layout for supplies relevant to the ASTRI project, which defines the scores related to the parameters ID2 and ID3 as per "D.P.R. 2007/2010 attachment P letter II.b"

The $V(a)_i$ coefficient is:

P_{Max} =1.500Meuro. The max price allowed by the tender.
 P_{Min} = the minimum price offered among all the bids received.
 P_i = the offered price by the i-bidder.

$$V(a)_i = (P_{Max} - P_i) / (P_{Max} - P_{min}) = R_a / R_{max}$$

The above criterion supersedes any previous communication on this specific topic.

With this notice (letter) we also acknowledge the existence of a problem related to the registration and payment on the AVCP web site: This is simply due to a technical error that

should be solved in a couple of days. Therefore we accept the offer without the receipt of payment to AVCP, that we had requested be included in the envelope "proposta Tecnica" in our invitation letter.

The deadline for the offer submission remains **Saturday 15th June 2013, at 24:00 o'clock.**

However, for the offer to be valid, we request that the AVCP payment receipt is faxed to us by Friday June 28 at the fax number +39 0272001600.

Finally, please find below some other information about the tender:

- 1) The CIG tender code to register on the AVCP web page is: 51418103D7
- 2) all documents regarding the tender are posted at the public link on the ASTRI site:
<http://www.brera.inaf.it/astri/?pagina=tender>

Best regards
Dr. Luca Stringhetti
R.U.P./Head of the procedure
